

Burning Data CDs and DVDs on a PC with Sonic

1 Open Sonic DigitalMedia Plus from the Start menu

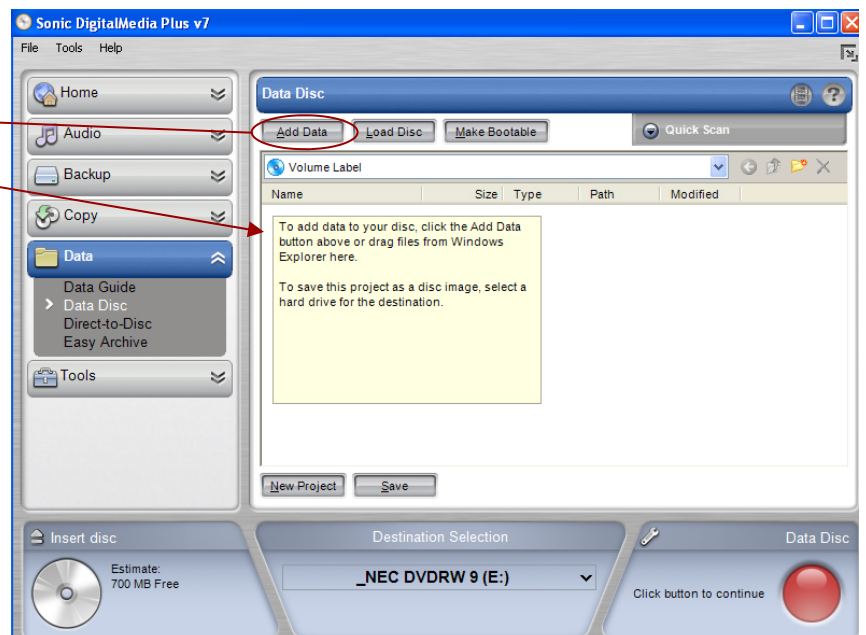

2 Sonic will open the Data Guide window as shown below

Click on "Data Disc"

3

4 You can either click on "Add Data" to choose the files you want to burn or drag and drop them into the Sonic window.

5 Once you've added the files you want, click the large red button and then insert your blank CD-R or DVD-R when prompted.

Wait while your data burns! Your CD/DVD will eject when finished.
